## Fraundorf Hired for Madison Schools

To Serve as Security  
Officer; Blumentstock  
Re-Elected President

(Pictures on Page 14)

Oel Blumentstock was re-elected president of the Madison board of education Thursday night, and former Madison county sheriff Harmer Fraundorf was employed to a new position as security officer.

Harold T. Fisk was elected as board secretary during the reorganization meeting, succeeding William Schreiber.

Fraundorf, who was a veteran chief of police for the city of Madison, retired following his four-year term as county sheriff a year and half ago. He will be on the same salary schedule established for school custodians, \$500 to \$225 a month, depending on hours worked.

His appointment will be effective May 1 and he will serve only during the nine-month school year. He will serve during the current school year until the end of May.

As a precedent, board members cited action by the Granite City school district in employing a former Granite City chief of detectives as a trustee officer.

The board acted in the face of walkouts by Negro and white students last fall at Madison high school over a racial issue.

No Change in Vote

A canvass of ballots cast at the April 13 school board election, in which Blumentstock and Frank Derner were re-elected to three-year terms, showed no change from the unofficial returns.

Reappointed for the year were Raymond Dragich as superintendent of schools, John Glickoff as school attorney and Raymond Kozielek as school treasurer.

The board formally accepted resignations of Harland Scheibel as high school football coach, Jim Logan as high school basketball coach, Michael Gravelle as a high school teacher and assistant coach, and Dennis Reville as a high school teacher.

Employed were Robert Page as head basketball coach and social studies teacher at the high school, Roger Benway, Louis-Baer teacher, at Madison, and William Schmidt of Granite City, who has served as a substitute teacher the last two years, at Madison.

Fire Safety Work

Raymond Dragich, school superintendent, reported that work to be fulfilled in connection with the fire safety work.

## Venice Approves Weaver Street Repaving Plan

Action for bituminous resurfacing of Weaver street in Venice from College street to Market street was completed by the Venice city council Friday night.

Tentative plans were discussed for curbing construction and drainage improvements on Line alley, also from College to Market, a distance of four blocks.

The council also instructed Edward J. Jurek of Sheppard, Morgan & Schaub, consulting engineers for the city to draw up preliminary plans for the Line alley improvement, which is intended primarily to eliminate current drainage problems.

Estimates Cost

Jurek told council members that the cost of the proposed street project indicated that, including curb construction and resurfacing, it would cost \$8000 to \$9000. It will be submitted for state approval as a motor fuel tax project.

Broadway Bids Set

Jurek reported to the council that he conferred last week with highway engineers at the French Lick district office and was informed that bids for the Broadway underpass at the Venice intersection will be received within a few weeks.

The project previously had been scheduled for a bid call in May and there have been no developments indicating a change in these plans, Jurek said.

Mayor John E. Lee announced reappointment of Walter T. "Buck" Simmons as a member of the Tri-City Regional Port District board for a three-year term.

Simmons' term on the seven-man port board expires this month.

An application by Tri-City Greco Co. for permission to eliminate 40 feet of curbing along Broadway for construction of a new parking lot on the north side of the building at 409 Broadway was approved by the council. The request previously was approved by the state, whose permission was needed.

## 200 Honor Sunnen at Scout Camp Ceremony

Philanthropist Subject  
Of Plaque Unveiled at  
Missouri Reservation

Over 200 scouts, scout leaders and Sunnen Rangers of the Cahokia Mound Boy Scout Council attended the dedication of a memorial to Joseph Sunnen at Camp Sunnen, near Potosi, Mo., Sunday. The memorial plaque has been erected near the entrance of the camp, overlooking a valley and Lake Sunnen.

About 300 acres on the south end of the lake were provided by Sunnen in 1952 for the use of the council as a year-round camp. Since that time, over 13,000 scouts and leaders have attended the camp and extensive facilities have been developed.

Henry D. Karandjef, chairman of the Camp Development Committee and a member of the Sunnen Foundation and the Sunnen Manufacturing Co. given over a million dollars to youth camps, said the plaque is a memorial to Joseph Sunnen, which is now used by the YMCA, the Cahokia Mound Council, and employees of Sunnen Manufacturing, Karandjef noted.

Don Menke, Eagle scout of Granite City Troop Eight, told what the camp means to the boys. The dedication prayer was by Dr. F. H. Daniels, pastor of the Presbyterian church in Potosi.

Lunch, Tour of Camp

Carl E. Mathias, council president, presided at luncheon. After the dedication, a picnic lunch was served by the camp staff, followed by a tour of the camp.

Special guests from Sunnen Manufacturing were Mr. and Mrs. Joseph Sunnen; Mr. and Mrs. Robert Sunnen, son and daughter-in-law; Mr. and Mrs. (Continued on page 7, col. 8)

## 54 SIU Faculty Promotions; Wiley Education Dean Here

Fifty-four faculty members of Southern Illinois University received promotions in rank Friday as the university board of trustees met at the Carbondale campus. Most are effective in September 1968.

Seventeen will advance from associate professor to professor, 33 from assistant professor to associate professor, and four from instructor to assistant professor.

In recommending promotions, University President Delyne W. Morris said the list was the result of prolonged review by the chairman of the various faculties, academic deans and the vice-president for academic affairs.

"We are attempting to maintain standards for these ranks comparable to those in use at the major universities," Dr. Morris said. "With particular emphasis on recognition of good teaching as well as research productivity."

In other personnel actions, the board approved employment of a dean and an assistant dean for the southwestern campus. Dr. W. Deane Wiley, 43, was named professor and dean of the Education Division, effective Aug. 1. A graduate of Claremont Graduate School, he has been associate professor at New York University.

Hoover Asst. Business Dean

Dr. Arthur E. Hoover, 47, was named professor and assistant dean of the Business Division. He is a native of Chicago and received his Ph.D. degree from the Illinois Institute of Technology.

John Monroe, formerly at station WGN, Champaign, was named assistant director of broadcasting. He is a native of Benton.

Appointments for three visiting educators were approved. Misses Garbarino, Reinhardt and Siegfried G. Reinhardt as visiting artist during the 1968-69 academic year. Garbarino is a British educator and author while Reinhardt is an American painter.

Max Saville will serve as visiting professor in history during the spring quarter, 1968. He has taught at Stanford University and the University of Washington.

In a change of assignment, John E. King was named chairman of the department of administration and supervision in the College of Education on the Carbondale campus. He relieves Arthur E. Lean, who has been serving as acting chairman.

Complete tours of the Department will be available all during Armed Forces Week, May 13-18. Theme for Armed Forces week this year is "Forces for Freedom," honoring "today's serviceman." The theme is intended to portray his mission to duty, courage and stamina in trying times.

The average serviceman is not in the habit of strutting and bragging about himself. Generally, he goes about his job quietly and conscientiously, endeavoring to live up to the respect and trust the American people have in him," a spokesman commented.

"This holds true for the serviceman in Vietnam. He may be at Khe Sanh, living from day to day with the knowledge that he won't be there if he wasn't needed. Or, he may be stationed in the United States."

## Former Resident Injured Fatally in 2-Car Crash

Mrs. Schlueter, 73,  
Dies Saturday; 25 Hurt  
In 33 Area Accidents

A former Granite Cityan, Mrs. Blanche A. Schlueter, 73, of Edwardsville, died at 10:40 p.m. Saturday in Firms Desloge Hospital, St. Louis, of head injuries suffered about 2 p.m. Friday in a two-car collision at Peters Station.

Her husband, Walter, 79, suffered minor injuries as did one driver of the other car, Joseph Fedrick, 18, also of Edwardsville. In 32 other traffic mishaps in the local area over the weekend, 23 additional personnel injuries were reported.

Mrs. Schlueter, who was riding in an auto driven by her husband, was being emergency treatment at St. Elizabeth Hospital before being transferred to the St. Louis hospital.

Making Left Turn

State police said Schlueter was driving east on Route 162 and after observing the stop sign, was making a left turn onto Route 157. Fedrick, who was traveling south on Route 157, was unable to stop and his auto skidded into the Schlueter car.

Schlueter and Fedrick, also were given emergency treatment at the local hospital and released.

Born in Edwardsville township, Mrs. Schlueter was raised on a farm near Edwardsville. She and her husband, Walter, who survives, resided in Granite City more than 30 years, moving to a new home on Rural Route Four upon the latter's retirement from Granite City Steel Co. about ten years ago.

Mrs. Schlueter was a long-time member of St. Mary's parish in the Catholic Church of Edwardsville.

Beside her husband, also surviving, she had one daughter, Mrs. Ralph (Eileen) Huselkamp of Granite City; four brothers, Alois Svoboda of Edwardsville, Frank and John Svoboda, both of Glen Carbon and Albert Svoboda of St. Louis; and two sons, Robert and John Svoboda, both of St. Louis.

Funeral arrangements are given in today's obituary column.

## Old White Swan Inn Razed by Second Fire

Fire believed to have been of incendiary origin destroyed the old White Swan (Club Jay) tavern building at Namooki and Morrison roads near Mitchell early this morning.

It was the second fire believed to have been set in the tavern building within a week. Mitchell firemen extinguished a blaze in the basement last Wednesday, a day after the nearby Diamond Inn building was destroyed by a fire.

The Diamond Inn building was leveled by fire. Lee Paul, chief of the Mitchell fire department, said the Diamond Inn blaze also was believed to have been set.

Paul said Mitchell firemen received the call to the White Swan building at 12:05 a.m. today and that the structure was engulfed by flames when firemen arrived.

No efforts was made to save the building, but firemen controlled the blaze to prevent damage to utility poles and power lines.

Both the White Swan and Diamond Inn buildings were vacant and were to be razed by the state highway department in the right-of-way needed for highway construction work in the area.

Paul said Mitchell firemen received information that a man was seen at both buildings before the fires last week.

## Edison Ave. Traffic Jam-Up Shows Need of New Controls

A traffic jam-up of northbound vehicles in the 1800 and 1900 blocks of Edison avenue during the afternoon rush hours Friday will result in recommendations for revised traffic controls as soon as a survey can be completed, Chief of Police Ronald Veizer said today.

One step in this direction, he said, will be passage of an ordinance creating steps to control southbound traffic at 18th and 19th streets. He said he expects this ordinance to be presented to the city council tonight.

Other changes ill await observation of the effects the changeover from one-way to two-way traffic will have over a period of several weeks.

"It is difficult for motorists to change in a few days the driving habits they have had over ten or more years," Chief Veizer said.

Veizer said the green light operates on a standard setting at 19th street, allowing four vehicles to clear in the north-south lanes "if they don't lag."

He added that it is obvious that recommendations for traffic control changes will have to be made, "but at this moment I can't say exactly what those changes will be."

LONG LINE-UP of northbound traffic in the 1900 block of Edison avenue Friday afternoon—confined to one lane—was the result of a traffic jam-up at 19th street, looking southbound on Edison avenue about 4:30 p.m., shows the northbound traffic in the one lane.

## 'Forces for Freedom' Theme Of Armed Forces Day May 18

The Granite City Army Depot will host to the public on Armed Forces Day, Saturday, May 18, and is planning displays of the latest Army equipment in the Quad-Cities and at the Depot.

In addition, activities at the Depot will include a slow-pitch softball game between the Tri-City Chamber of Commerce and the Depot, school bands, drill teams, Almad Temple Shriners compact motor unit, train rides, jeep rides, demonstrations of Army equipment, refreshments, a golf tournament and a retreat ceremony.

Complete tours of the Depot will be available all during Armed Forces Week, May 13-18. Theme for Armed Forces week this year is "Forces for Freedom," honoring "today's serviceman." The theme is intended to portray his mission to duty, courage and stamina in trying times.

The average serviceman is not in the habit of strutting and bragging about himself. Generally, he goes about his job quietly and conscientiously, endeavoring to live up to the respect and trust the American people have in him," a spokesman commented.

## Cunningham New President Of Local Optimist Club

Fred Cunningham, of 13 Frontenac lane, service area office supervisor for Illinois Power Co., named president of the Granite City Optimist Club at the annual election meeting held Thursday afternoon in the YMCA. He will succeed in office, Dr. Raymond E. Troyer.

Club members also voted a donation of \$202 to a Boy Scout service project, involving camping trips planned this summer for underprivileged scout-age youth.

Gene H. Sternberg, Optimist International president-elect and a member of the Cahokia Mound Boy Scout Council, discussed the camping program for which funds currently are being raised by a committee spearheaded by Col. Charles E. Hoskin III, Granite City Army Depot commander.

An experimental camping project was undertaken by the council last year, with a number of Quad-City youths enjoying their first camping experience at Camp Sunnen, near Potomac, Md.

Others elected to serve with Cunningham in 1986-87, include: John P. Drevies, first vice-president; Herman Mueller, second vice-president; John Solenberger, secretary; R.E. James R. Craddock, treasurer; and Rev. Paul Surbey, sergeant-at-arms.

Named to three-year terms on the board of directors were Vernon Tharp, Dr. John Reed and Alex Duccini.

An eight-year member of the Granite City Optimist Club, the new president is a former club secretary and served on the service organization's executive board during the past year. He is a member of Granite City Elks Lodge 1063 and a director of Paddlers, Inc., a local non-profit swim club.

Cunningham has resided in the local community almost

of his adult life. He and his wife, Shirley, are the parents of four children, Eric, Todd and Gail, all at home, and of James (Lynn) Harsh.

Installation ceremonies are planned for June, with the new club executives assuming their duties July 1.

In other business Thursday, members viewed a movie, "Pulse of Life," presented by Cunningham who served as program chairman. The latter also demonstrated mouth-to-mouth resuscitation techniques and closed heart chest massage, utilizing a mannikin.

The utility company supervisor explained that several Illinois Power employees have been instrumental in saving the lives of others through their knowledge of the two induced respiratory methods, plus an ability to react quickly in emergency situations. He advocated each Optimist learning the basic fundamentals of mouth-to-mouth resuscitation.

Two new members welcomed into the club were Robert E. Geller, Specialized Services, Inc. staff administrator for professional services, and Thomas M. Kiely, a local insurance company representative.

Thirty-two attended the luncheon meeting, conducted by Dr. Troyer.

There also was damage to the left front of the northbound car of Larry Kaufman, Alhambra, Ill., who said he was unable to stop due to wet pavement.

At 1:35 a.m. Saturday, Walter was charged with careless driving at Amos street and Nameoki road, where his southbound auto had crossed a high concrete lane divider and then skidded back across it.

**SCOUTING OSCAR WINNERS** at the annual appreciation banquet Saturday night included (left to right) Earl McMillan, Wilbur Shelton, John Peck, Mrs. Lorraine Stawar, Floyd Pitchford and Curtis Stover. Among other recipients were Carl Mathias and Floyd Jordan.

## Graham, Lewis, Adamson are Honored as 50-Year Scouters

Over 400 scouters and wives honored three 50-year scouters at the 18th annual appreciation dinner of the Cahokia Mound Boy Scout Council Saturday evening at the SIU-SW University Center.

Announced as recipients of the Silver Beaver, highest award that can be given by a council for service to boys, were Robert Lewis, chairman of the Illinois district, Paul Earnhart, Highland, district president of the Kickapoo district, and Fred Kauten, Greenville, council leadership training chairman who earlier in the evening received the national wood badge award.

"Oscar," a replica of the famous scout statue erected in memory of the unknown English scout who through a good turn to William D. Boyce was responsible for scouting coming to America, was presented to 20 scouters.

Univis (Quad-City) district Oscar winners included Earl McMillan, Troop Seven scoutmaster, John Peck, activities chairman, Mrs. Lorraine Stawar of the women's reserve; Curtis Stover, assistant district commissioner; Floyd Jordan, Pack 41 cubmaster; Wilbur Shelton, Explorer Post 12 advisor; Floyd Pitchford, institutional representative; and Council President Carl E. Mathias.

Service to God, Country and Community. Dr. H. Roe Bartle, mayor of Kansas City, Mo., from 1955 to 1963, stressed Boy Scouts' dedication to God and country in an inspirational talk delivered forcefully despite his age, 76, his weight, 250 pounds, and a disability that requires use of leg braces.

An internationally known speaker, Dr. Bartle attended at the invitation of a close friend, Henry D. Karandjoff, council camp development chairman, who said in introducing Dr. Bartle that he had been sought previously but was unable to attend in the past due to prior commitments.

Donor of the world's largest scout camp, Dr. Bartle said the high point of the evening for him was awarding of national honors to John Karandjoff and Teague, explorer in Concordia Lutheran Church, Post Six who saved a boy from drowning here last spring.

The speaker challenged unit leaders to extend membership to all boys. "Never has America needed scout trainers and leaders as it does today. They have the great responsibility of developing character in the leaders of America," Dr. Bartle asserted.

**50-Year Members**  
Graham was honored for his half century of consecutive service to the Cahokia Mound Council as assistant scoutmaster of Troop One and later as an executive board member. He is the only surviving charter member of the council.

Lewis and Adamson became scouts 50 years ago, rising to the rank of Eagle, and have served actively at the unit, district and council levels since then.

Mathias presided and prayer was offered by Capt. John Paul Jones, Granite City Army Depot chaplain. Mathias thanked volunteer leaders and scouters, and said those who come in personal contact with boys are the most important people in scouting.

Those presenting various

awards included Vice-Presidents Rollin Henn, Victor Drexelius, George T. Wilkins sr., Howard Casenberg, and Dr. M. W. Grimm, Council Commissioner William Shindel, Gene H. Sternberg, Henry Gray, Robert Wildhaber and Floyd McCracken.

Ronald Pennell served as narrator for opening and closing scout ceremonies. Milton Allen led group singing, with Edwin G. Schmitt as accompanist, and the Edwardsville high school, a Capella choir presented selections from "Oklahoma."

John Solemberger was dinner chairman, aided by Peck, Allen, Wilkins, Ed Lorton, William Hagemeier, H. B. Warren, William Gattung, Christ Pashoff and William Jokers.

## A. O. Smith, Union Meet to Clarify Contract Terms

Representatives of A. O. Smith Corp. and Bollemakers Union Local 575 were meeting at the auto frames plant today in a "general discussions" session.

Both company and union officials said the meeting was held to clarify terms of the contract agreement of March 25 to end the 85-day strike by 1200 members of the union. No controversial issues are involved in today's session, it was said.

The meeting, which began at 10 a.m., was attended by plant officials, Flarce "Bill" Warfield, president and business representative of the union; Clay Partin, International union representative from Kansas City, and members of the union grievance committee.

Arrangements for the meeting were made last week following settlement of a short-lived controversy over a company requirement for physical examination of about 300 workers scheduled for recall to man a third assembly line. They are scheduled to return next Monday.

Union and company officials signed a letter of agreement in which the company waived the examination requirement as it pertained to workers involved in the strike. The company said, however, that it will continue its policy of requiring such examination of all workers who are off the job 90 days or more hereafter.

It's amazing how accurate a watch can be, when it has a tuning fork.

The things that make a watch tick are the things that make a watch run wrong. Like its balance wheel. And mainspring and hairspring. So those things have been left of the Accutron's timepiece. They've been replaced by a tiny tuning fork that hums. The tuning fork splits a second into more parts than the balance wheel movement ever dreamed of. 360 parts, to be exact. (The best ticking watch can do is 5 or 10.)

It's the tuning fork's uncanny precision that makes Accutron the most accurate timepiece you can wear. We're able to guarantee Accutron accuracy to within one minute a month. That's 2-seconds a day. And many owners say they're off only 1 second—or none at all. With accuracy like that, a watch has no business ticking when it could be humming.

The bridesmaids appeared in yellow gowns and their bouquets were arrangements of yellow and white carnations. Each wore floral headpieces to match their dresses.

Little Tammy Ellis, sister of the groom, flower girl, wore a long frock of white dotted swiss, A-line in style, with a ruffle of Chantilly lace repeated along the hemline. She wore a headband of white lace and yellow flowers and carried a miniature bouquet of white and yellow pom poms.

Granite City Steel Credit Union and Mercer baseball teams won their opening games Sunday afternoon as the Southwestern Illinois Inter-City League opened its 38th season. Also winning openers yesterday were Maryville over East Alton 1-0 and Collinsville Mollitor over Pocatontas 4-3.

Credit Union squeezed past Troy 2-0 at Wilson Park and Mercer won 5-1 at East St. Louis over the Polish-American War Veterans. The two Quad-City nines shared first place in the Blue Division, with Maryville and Collinsville on top in the Red Division.

GC Steel Credit Union pulled its game out of the first after trailing 4-0 late in the ninth inning. Troy had scored four in the first, two in the second and one each in the third and

fourth. Credit Union scored once in the first and three times in the fourth.

The host team tied it in the ninth as Jim Clark singled, Terry Turner beat out an infield hit, Joe Fanning walked, Pat Harris beat out an infield, with one run scoring. Rick Whitsell singled to score another and Charlie Stephens doubled in two more.

In the tenth inning, a triple by a Troy player with none out caused a threat but strong pitching by Harris stranded him.

Granite City won it in the last of the tenth as Terry Turner led off with a single. After two fly outs, Harris was intentionally passed. Turner having stolen second, Turner having stolen second.

Whitsell beat out an infield hit to lead the bases. With a two-

strike and one-ball count on batter Charles Stephens, he was hit by the next pitch, driving home the winning run.

Harris relieved Larry Jones, striking out nine and allowing two hits in the final six innings.

Mercer scored a run in the first, two in the third and two in the fourth. The sole PAVV run came in the eighth inning on a passed ball.

Mercer scored in the first on a hit by Harold Tanksey, a steal and a single by Larry Corey.

Roy Logan hit a two-run single after fielding errors in the third inning.

In the fifth, Logan walked, advanced on a wild pitch and scored on a single by Greg Wasylak, who scored on a wild pitch later in the inning.

## Who's On First--and In First Place? It's GCHS

GCHS earned sole possession of first place in the Southwestern Conference by trimming Wood River 8-2 here Thursday, and advanced its season record to 12-0 by winning 2-1 and losing 5-4 in a twinbill with Springfield Griffin here Saturday.

The Warriors had been tied for first with Collinsville, which lost 3-2 to East St. Louis Thursday.

The visitors scored their lone run in the fourth off Jim Jones, who was relieved after five innings by Don Rains.

GCHS scored its four runs in the first three innings but Griffin prevailed with five runs in the next three innings.

St. Elizabeth Catholic Church was the scene of the wedding Saturday of Miss Ruth Ann Costello, a daughter of Mr. and Mrs. James Costello, 1600 Clark avenue, and Robert Paul Cruse, whose parents are Mr. and Mrs. Wilbur Cruse, 1624 Spring avenue.

The Rev. George Morelock officiated at the noon Nuptial Mass. The bride approached the altar escorted by her parents, who gave her in marriage. She wore a gown of sheer organza with re-embroidered pearl-embroidered Alencon lace featuring a Victorian silhouette. It was floor-length with heavy lace banding the hemline and the wrist-length, widely-cuffed sheer bishop sleeves. Pearl-etched lace formed the yoke of the high necked gown and a detachable organza cathedral train bordered in lace flowed gracefully from the Empire line. A bonnet of Alencon lace secured a full illusion veil, and the bride held a bouquet of white roses. The double ring service was used.

Miss Janice Cholevik, maid of honor, and Miss Susan Friederich and Miss Karla Copeland, bridesmaids, were dressed alike in gowns of yellow chiffon with circular white lace bodices and puffed sleeves. They were trimmed at the Empire waist lines with Venice daisies and satin ribbon. Headpieces were floor-length tuffs of yellow organza.

They carried three yellow rosebuds tied with yellow and green ribbon. A little flower girl, Lisa Rabenort, a cousin of the bridegroom, wore a gown similar to those of the older girls. Her veil was floor-length also and she carried a white basket filled with yellow pom poms and rose petals.

David Paoli was best man for Mr. Cruse, and Tim Dees, Joe Costello, a brother of the bride, Joe Quaranto, Anton Westveld and Eugene Rabenort, the bridegroom's uncle, served as groomsmen and ushers.

## Lockmaster Elliott Retires; Leroy Harris Named to Post

Roy Elliott, lockmaster at the Chain of Rocks canal locks since before it was opened to river traffic, retired Friday after 36 years service with the U. S. Army Corps of Engineers. Elliott, who lives in Alton, was lockmaster at the Alton locks before being transferred here on April 1, 1951. The local locks opened on Feb. 7, 1953.

The new lockmaster is Leroy Harris of Glen Carbon, formerly assistant lockmaster. Harris has been at the canal locks 16 years.

The retired lockmaster recalls river travel was comparatively light when the locks and the 8.4-mile-long canal opened.

To illustrate his point, Elliott said in the 11 months of 1953, tonnage passing through the locks totaled 8,127,595. Last year, the total was 43,243,845. During his duty here, Elliott recalled passage through the locks of unusual crafts and objects, ranging from an ocean-going "Victory Ship" "Marine Angel," enroute from New Orleans for iron ore service on the Great Lakes, to a canoe of travelers from Minnesota on a marathon trip to New Orleans.

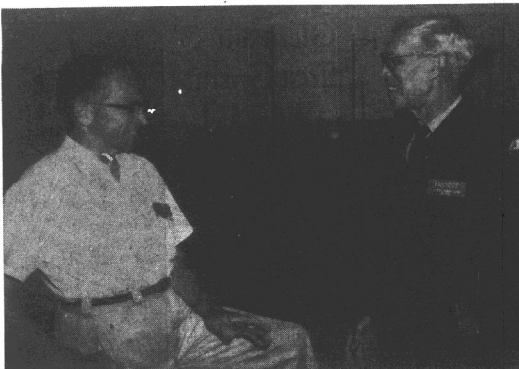

Not too often, a float of logs heading south goes through the locks.

Elliott said he was assigned here prior to the opening of the locks to acquaint himself with the procedures and equipment. At the time of its opening, the larger 1200-foot lock was the largest in the western hemisphere. It has since been matched at other points along the Mississippi River, and a 1200-foot lock is planned at Alton.

When the locks and canal first opened, about one to 1½ million tons of freight by-passed it each year as the towns preferred the treacherous Chain of Rocks reach in the river. However, with the construction of the low water dam below the Chain of Rocks river bridge, all traffic was diverted to the canal and locks.

The low water dam was needed to build up water for the Alton locks where barges often had to be lightened during low water stages of the river to be able to cross the lower sills of the Alton locks.

With his retirement, Elliott and his wife, Wilma, plan to tour the 48 states. "And we might get to the 49th state," he said it was unlikely they would go to the 50th state, "Because you can't hardly pull a camper-trailer to Hawaii."

## our thanks to a progressive city council

The Downtown Granite City Association takes pride in saluting Granite City's city council for their progressive action in making Edison Avenue, from 18th to 20th Streets, a two-way street.

This forward-thinking move will provide added convenience to our customers and allow much easier access to many of the Downtown businesses. Public reaction already indicates what an important step this is in making Downtown Granite City more competitive with out-of-town shopping areas and toward keeping Granite City dollars in Granite City.

Similar progressive steps were taken several years ago when Delmar and State Streets were reconverted to two-way streets. We are sure this new action will prove as successful as the earlier ones.

The prosperity of the Downtown area is vital to the entire community. We feel confident that by providing this improvement, you, the city council, have established a climate that will bring new businesses to the Downtown and will make it more profitable for present businesses to remain in Downtown Granite City.

Thank you, Council Members

## Blocked Drives Necessary Evil of Road Improvement

Construction of pavement slabs along the south section of Nameoki road is being completed as rapidly as possible to reduce to a minimum the inconvenience of persons who live along Nameoki road and are denied access to their driveways, Robert Kronst, chief engineer of the Illinois State Highway district office at French Village, said today.

Kronst pointed out that blocking of driveways from residences into a street that is being paved is always a problem for which there is no solution "because it would be impossible to provide crossovers at every lot and still pour new pavement."

He noted that crossovers are provided at every street intersection and that residents who have alleys at the rear of their homes therefore are not inconvenienced to any great extent. One complainant told the Press-Record his driveway has been blocked since March 28.

"I realize that there are some locations where it is necessary for a resident to park his car somewhere for the duration of the paving work," Kronst noted, "but we seldom have many complaints because a majority of persons consider themselves repaid for the sacrifice by the improvement of a new street makes to their property."

Kronst said he had received several complaints, but that virtually all of them came from persons who maintain small

businesses in their homes or basements. He said state regulations require contractors to provide crossovers at street intersections and at major business establishments, but not at residential driveways.

Checked Complaints  
"I personally checked several complaints," Kronst said, "and found in several instances that access to the driveways of the complainants was available through a neighbor's driveway."

I spoke with the neighbors who told me they had no objections to use of their property for ingress and egress during the paving work, so actually I didn't consider the complaints justified."

Kronst estimated that excavation, grading and construction of pavement at given points along the road could be expected to block residential driveways for a period of six to ten weeks, depending upon the weather.

A representative of A. H. Seebold Co. which holds the contract for the Nameoki road improvement said that at the beginning of a job such as the Nameoki road project, crossovers are provided for "all businesses of record" as required by state regulations, but not for residential lots.

The spokesman said the contracting firm has received no complaints, but in contrast has heard from many persons along the improvement "who tell us how glad they are the road is being improved."

## New Admission Plan to Be Tested at SIU-SW

An experimental admissions program emphasizing success in non-academic activities rather than grades will be undertaken by Southern Illinois University-Southwestern campus, it was announced today.

The trial program will be limited to 50 students from Madison, St. Clair, Bond, Clinton or Jersey counties. Students with below-average academic records but who have demonstrated excellence in non-academic activities associated with their high schools will be eligible for the pilot program beginning in the fall quarter.

"We are seeking people who are motivated," Robert W. MacVicar, SIU vice-president for academic affairs, said. "If they can achieve success in one area of their high school effort, we believe they deserve a chance to succeed in college."

The SIU-SW experiment is based on research reports from the American College Testing program which show there is little relationship between high school grades and later success in life. The ACT study suggests new criteria should be developed for college admissions.

### TROOP 20 STUDIES HORSE

Boy Scout Troop 20, sponsored by the Webster PTA, met Wednesday evening at the school with Assistant Scoutmaster Tom Watkins in charge.

The regular meeting was held in the school gymnasium, while Miss Connie Hafley, member of the Trailriders Saddle Club, met with several of the first class boys and instructed them on the anatomy of a horse. Each boy made a drawing of a horse. This is one of the requirements of the horsemanship badge. Miss Hafley will attend the meeting next Wednesday and work will continue on the badge.

The meeting was adjourned and a recreational period followed in the gymnasium.

Plans were made to hike to Wilson Park for a cookout next Wednesday instead of the regular meeting, and a discussion was held on a "fly-up" ceremony at the school May 15. A train trip to Union Station is planned for May 29. Work continued on a project for Mother's day.

## GC Steel Asked For Reports on Dust Emissions

Granite City Steel Co. has been requested to file frequent reports with the Granite City Air Pollution Control Board regarding progress toward elimination of red dust from the steel plant, it was reported Friday.

Henry Bieniecki, chairman of the pollution control board, in a letter to steel company officials, also requested that design data and operating logs for the firm's electrostatic precipitator which was installed to eliminate pollutants from the company's new Basic Oxygen Furnaces, be furnished to Prof. E. W. Hoelscher, technical secretary of the board.

Prof. Hoelscher stated at the April 8 meeting of the city Air Pollution Board that it was not unexpected for the fine tuning of the precipitator to take a year.

Bieniecki pointed out that complaints of red dust that discolors homes and autos have been received in recent months. Company officials have attributed the source of the dust to wind-blown particles resulting from the loading of iron that has been removed from the precipitator.

**Inspected Homes**  
"In personally inspecting some of the homes on which complaints were received," Bieniecki said, "I observed that the discoloration was the result of spots varying in size... close to the BOF the effects were quite heavy and the spots appeared to be together. The spotting of the discolorations and the size of the spots did not seem to fit with your present theory of a fine, light dust that is readily blown by the wind."

Bieniecki said in his letter that "I would also appreciate your keeping the local boards frequently posted by letter on the corrective steps you are planning to take, and on the time table. As you recall, your original date for completing the de-bugging or fine tuning of the precipitator system was Dec. 31, 1967, and the board was to be notified if there were any difficulties in meeting that date."

## 120-Day Delay Program For Army Enlistees

The Army's recently announced 120-day delay enlistment program is rapidly gaining the approval of men who wish to delay their date of entry into active service. It was announced this week by Sgt. Harold W. Pratte of the Army recruiting office at 1340 Niedringhaus avenue.

The sergeant said the program allows men to enlist in the Army and spend up to 120 days at home before reporting for active service. During that time, they are placed on reserve status and receive the 120 days as credit toward their total military obligation.

He said the 120 days also counts toward the time needed for promotion to the next highest grade and generally places the men ahead of those who may choose other options.

The sergeant noted that many men awaiting their induction notices are taking advantage of the 120-day program so that they can plan for a specific date to enter service in order to settle their affairs.

He said the 120-day man receives an added bonus because most of them are qualified to choose the type of schooling for career fields they wish to follow in the Army. These men are guaranteed in writing that they will get their choice of schooling before they go on active duty.

Additional information may be obtained by calling 876-5950 or visiting the local Army recruiting station.

**"We recommend Electric Heat  
because we enjoy carefree living,"**

SAYS THE WILLIAM JOHNSON FAMILY OF RIO, ILL.

"Electric heat takes care of itself . . . which is an advantage we have really learned to enjoy in our new home!" says Mr. Johnson.

"Because the baseboard heaters are so care-free, there's more leisure time to spend with the family. And it's made even more enjoyable with the room-to-room temperature control we get with electric heat.

There are no disturbing hot or cold areas to

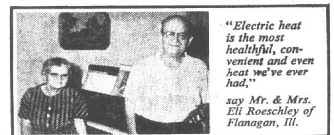

spoil the fun . . . just clean, quiet, uniform heat throughout. We recommend this kind of living without hesitation!"

If you're planning to build soon, here is something else you'll find extremely comforting: The rate for electric heat has been reduced for Illinois Power Company customers.

For facts about heating your new or remodeled home electrically, call your Illinois Power office.

"Our electric heat bills have been very reasonable considering all the advantages we receive," says Mr. & Mrs. Carl Johnson of Centralia, Ill.

"Electric heat is the most healthful, convenient and even heat we've ever had," says Mr. & Mrs. Eli Roeschley of Flanagan, Ill.

# 7000 Attend Family Day At General Steel Plant

"GSI Family Day," the first in about 15 years, was held yesterday at the Commonwealth plant here of General Steel Industries with nearly 7000 persons, including a large number of youngsters, touring the facility.

It was an opportunity for the firm's 1500 employees to show their families where they worked and how the huge plant operates. While the departments were shut down for the day, tank hulls and turrets and huge industrial castings were on exhibit, as were New York Transit Authority subway cars.

The local plant turns out the undercarriages for the subway cars which are manufactured at St. Louis Car Co., a member firm of General Steel Industries.

A number of plant officials were present for the family day, including Thomas A. Remington, president of the Castings Division.

Each visitor was given a pin and a souvenir key ring, and refreshments were served in 150 cafeterias, where a slide presentation of the plant operations was shown.
